

Mobeus Scholarship Programme Application 2019

Mobeus invests in great British companies to help them grow and prosper. To achieve this we invest in people. Mobeus doesn't run the businesses we invest in; we back great management teams to do so. As a result, we have always had a diverse group of entrepreneurs across our portfolio. Together, we maximise unrealised potential by deploying:

- Money – investing the funds we manage;
- Talent – applying the intelligence, experience and efforts of the Mobeus team; and
- Network – working with all our business partners, past and present, to find new opportunities and ideas, as well as talent and expertise.

And it doesn't end when the investment does. This network of brilliant entrepreneurs are our alumni. We all get more out of staying in touch and working together.

We realised that the power of our network and our philosophy allows us to back other talented individuals, at a different stage in life. We value our diverse backgrounds and the diversity of the individuals we invest in. We want to take that one step further.

Our ambition is to back young people who might have chosen not to attend university due to the cost, and to provide them with a broad set of tools to strengthen their confidence and equip them for success.

Value

The Scholarship Programme will mirror our approach to our day-to-day business. If you are successful we will invest in you with:

- Money – paying university fees;
- Talent – providing a Mobeus team member as a mentor and offering one month's paid work experience per year for three years; and
- Network – inviting members of the programme to attend our Mobeus alumni events, so they have the chance to connect with business leaders across a variety of sectors.
(in each case subject to certain specific conditions)
